Feast for reflexologists

IT was time to "treat" the stomach muscles to some good food instead of driving away its pain by massaging a nerve under the foot.

Berjaya chief executive officer Tan Sri Vincent Tan hosted a dinner recently for 500 foot reflexologists to do just that.

It was also a night for the reflexologists to let their hair down, enjoy the little gossips of their trade and to dress in any fashion they pleased instead of being strapped in austere clothes.

The dinner was held to welcome the reflexologists who were in town to attend the RWO-Shur Health Worldwide Conference 1992 at the Shangri-La Hotel.

Present were Austrian ambassador Dr Frederick Posch and directors of the Berjaya group of companies. — By Faridah Begum
